

GEOKINETICS INC. shale oil development and production

391 Chipeta Way D-2 • Salt Lake City, Utah 84108 • telephone (801) 583-0511

June 21, 1982

Mr. Jack Feight
Director
Division of Oil, Gas and Mining
4241 State Office Building
Salt Lake City, Utah 84114

Dear Mr. Feight:

Geokinetics Inc. is the lessee of two state mineral leases for oil shale: Mineral Lease No. 37138 - T12S, R24E, SLM Section 36, all; and Mineral Lease No. 37139 - T13S, R24E, SLM Section 2, all.

We wrote a letter to Mr. John T. Blake of the Division of State Lands & Forestry to advise him that our Company intends to erect a 100 foot meteorological tower to meet the PSD requirements of the Utah Bureau of Air Quality, and to drill approximately ten core holes for further evaluation of the oil shale reserves.

Recently we received approval to proceed with our operations on specific conditions including notifying the Division of Oil, Gas and Mining in compliance with the Utah Mineral Land Reclamation Act. We would appreciate your advising us the required steps to officially notify your Division.

Please contact me should you have any further questions. Thank you very much for your assistance.

Sincerely,

Margie Wim brow
